

CHILD CARE PROVIDERS!

Child Care Resource & Referral is here to help you:

Take Training

Do you want to learn more about child development or gain skills in a specific area? We offer new classes every quarter for early childhood professionals in a variety of topics. Register for training at any time to meet your licensing requirements and to learn more about providing outstanding care and education to young children. Our newsletter can be found on our website and is emailed out each quarter.

Receive Technical Support

Running a child care business comes with a lot of questions! We have plenty of resources and expertise to help you with operating a small business, navigating the Oregon Registry, and locating sources for help about common childhood issues. You can contact our team of Quality Improvement Specialists via phone or email to have your questions answered.

Become a DHS Listed Provider

Did you know that Oregon offers a program to assist qualified parents in paying for child care? You can become a DHS listed provider to be able to accept these subsidy payments. We can support you in completing the necessary form to become a DHS listed provider. Parents using the ERDC subsidy will be connected with your program, helping you grow your business!

Obtain Your CDA

A Child Development Associate is a nationally recognized credential that shows your commitment to providing children with an excellent early learning experience and recognizes you as professional in the field. We offer annual cohorts where you can receive ongoing training, encouragement, and support to obtain your CDA.

Participate in Oregon's Spark Program

Once you've been in business for a while and have gained experience and education, you may be ready for Spark. Spark, Oregon's quality rating and improvement system, allows programs to highlight the excellent work they're doing to provide safe, nurturing, and engaging early learning environments.

Grow as an Early Childhood Professional

Would you like to attend a conference or take college courses? We can help you access scholarships for training and ongoing professional development activities. Interested in joining a local provider organization to network with other educators? We can point you in the right direction. Let us help you connect to resources to support you in achieving your goals!

Want to help parents find your program?

Contact us to provide your program's information and provide vacancy updates.
